

## Heirloom Edition of *The Hidden Treasure of Dutch Buffalo Creek* Released

Local author Vincent James, writing as Jackson Badgenoone, has released the heirloom edition of *The Hidden Treasure of Dutch Buffalo Creek*.

The central character, believing that he sees gold, recovers instead an old bayonet buried under the shimmering waters of Dutch Buffalo Creek

in present-day Cabarrus County. The bayonet is a catalyst that drives him to sift through a lifetime of artifacts and bittersweet memories – and imagine a glimpse of the future.

The book explores the cause and consequence of conflict. Faith, hope and love emerge as forces that overcome challenges encountered by a tightly knit clan. The heirloom edition introduces notes and diaries; nostalgia-rich memories amplify character point of view. They invite readers to consider the nostalgia woven into the fabric of their life stories.

The heirloom edition of the novel can be purchased directly from the publisher, FriesenPress: <http://tinyurl.com/HToDBCHeirloom>. The original work, published in July, is available through Amazon and Barnes & Noble.
